Being creative is what I love to do. With ink, paper, markers, brushes, paint and more. I love to design and create. Be it Lettering or small home decor make-overs, papercrafts or digital art, it gets me all excited. I see beauty all around me and I'm so grateful for it. By being constantly inspired, to reflect that in my designs and share it with you. I hope to inspire you too. Let's make something beautiful together today and share it with someone else who needs it. Together we can MAKE this world a more beautiful place, one craft at a time.

Karin Joan

allround paper  
(16,9x24 cm)

Mindful Art is consciously taking time for yourself to express your thoughts in a creative way. Anything is possible here. There are no rules, the only rule is that you let your true feelings speak and that you let your heart, head and hands work together. Only then you can truly give yourself and are you being Mindful.

Love, Jenine
