- Exclusive products designed in-house

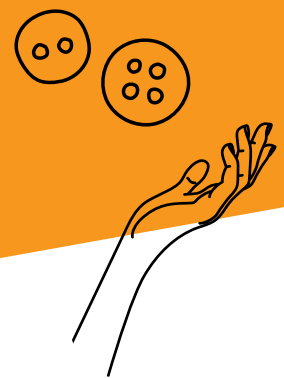

UNION  KNOPF

RANGE OVERVIEW

Buttons are the perfect details

By stocking our five collections, you offer your customers a varied selection of high-quality buttons, all of which deliver style, practicality, and sustainability – from classic designs to fashionable highlights.

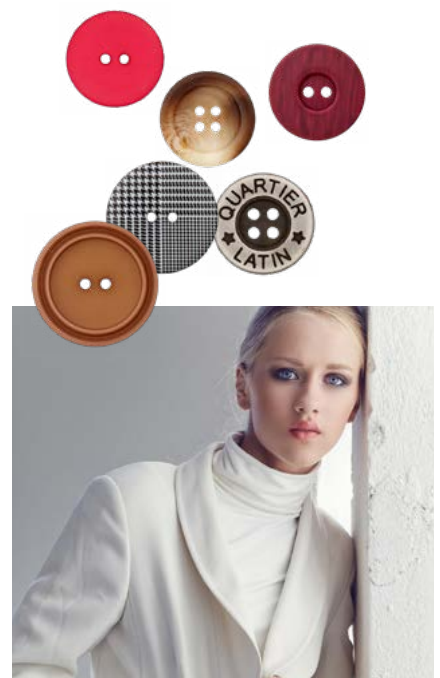

STANDARD COLLECTION

Timeless classics for a wide range of applications

Our standard collection comprises tubes of timeless basic buttons characterised by their high quality, durability, and versatility. This collection contains a wide selection of colours, sizes, and materials – ideal for classic designs.

- Versatile uses in everyday fashion and business wear
- Wide selection of colours, shapes, and materials
- High-quality, durable craftsmanship

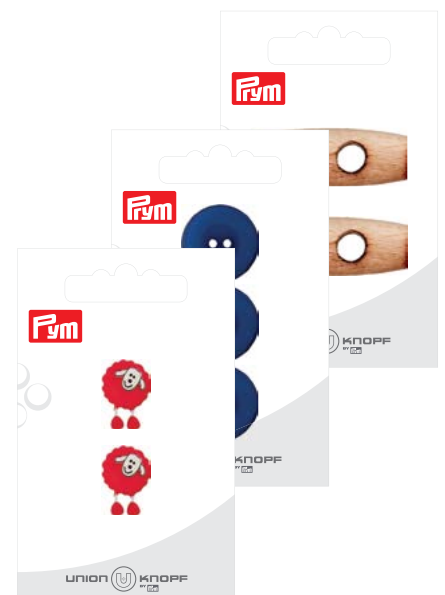

BUTTONS ON CARDS

Space-saving, diverse, and fast-selling

Our buttons on cards are a practical self-service option for your customers. This range includes an extensive selection of our most popular and highest selling products: Fashion buttons, buttons made from natural materials, suit buttons, metal buttons, recycled buttons, children's buttons, and cord stops.

- Handy self-service cards
- Space-saving, attractive POS presentation
- Varied selection for any need

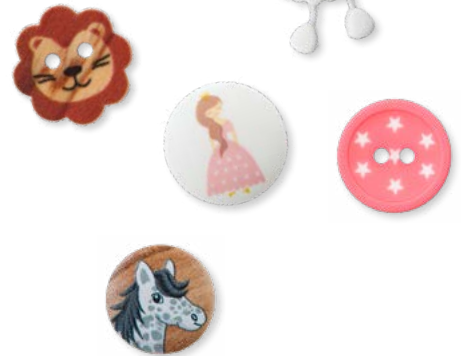

KIDS COLLECTION

Colourful, playful buttons for children's clothing

Our kids collection contains a diverse selection of playful button designs made especially for children's clothing. These buttons have distinctive, friendly designs with fun pictures and are made from child-safe materials in accordance with the highest safety standards.

- Child-safe materials with no sharp edges
- Cheerful colours and cute designs for children's clothing
- Ideal for baby and children's fashion

TRADITIONAL DRESS/ FOLKLORE COLLECTION

High-quality craftsmanship for traditional dresses

Our traditional dress collection contains an exclusive selection of traditional buttons and accessories for folk-inspired fashions. We have detailed, engraved metal buttons alongside traditional horn and wooden buttons. This category offers historic authenticity with modern quality standards to accentuate the unique character of every garment.

- Historically accurate designs and details made with love
- High-quality materials like metal, horn, and wood
- Ideal for dirndls, lederhosen, and other traditional dresses

SUSTAINABLE COLLECTION

Environmentally friendly buttons for conscious fashion

The sustainable collection is our response to the growing demand for environmentally friendly, resource-efficient products. Our buttons are made from a wide range of recycled materials like cotton, leather, mother-of-pearl, and hemp – all made from offcuts. These materials could be seen as waste but recycling them for this collection gives them a second chance, saving waste and minimising resource consumption. The materials are collected and shredded, then we use a sustainable process to turn them into new buttons containing 50–95% recycled materials.

- Buttons made from recycled plastics
- Buttons made from natural or biodegradable materials
- Perfect for sustainable design and eco-conscious customers

FASHION COLLECTION

Fashion highlights for trend-setters

The fashion collection is aimed at fashion-conscious people, designers, and labels looking to integrate current trends and exclusive designs into their own work. This collection contains fashionable buttons, ribbons, and fastenings, in particular shapes, colours, and materials – it is perfect for modern styles, seasonal fashions, and creative projects.

- Exclusive, design-oriented collection for fashion-conscious designs
- Innovative materials and surface finishings
- Regular product releases in keeping with current fashion trends

FASHIONABLE FASTENINGS

Re/Generations

Intelligent Simplicity

Alt Optimism

Re/Generations

Sustainable, intergenerational design: Inspired by nature, space, and science, these products are practical and eco-conscious. The concept of multi-everything design is long-lasting solutions for different generations, products, and purposes.

The spotlight is on buttons made from recycled materials, fasteners made from natural materials, and all kinds of bands and ribbons – for timeless, resource-efficient design with style.

Intelligent Simplicity

Clear lines, durable materials, and sustainable production methods characterise this trend. Less is more – clever design solutions are making fashion more durable and more sustainable. Alongside minimalistic buttons with practical details and innovative fastener technology, it is becoming more important to use materials that degrade after the product lifetime or that can be recycled or reused. Repair-friendly designs and modular elements help products last longer and are setting new standards for conscious consumption.

In this theme, we showcase minimalistic buttons with practical details, clever fastenings using innovative fastener technology and simple ribbons and bands for timeless looks.

Alt Optimism

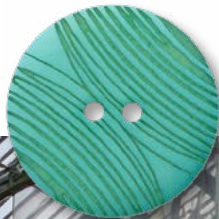

Alt Optimism celebrates a creative sense of rebellion and alternative visions of the future. It interprets a nostalgic aesthetic in new ways, using traditional patterns, vintage vibes, and analogue details combined with modern elements to express a yearning for a slower-moving, analogue age. Inspired by digital nostalgia and the beauty of the imperfect, this trend merges past and future to create a rebellious counter-pattern to a fast-living culture.

Retro-inspired buttons in playful shapes, striking fasteners in vintage styles, and decorative bands add charming accents and a touch of nostalgia to modern designs.
