FASHION COLLECTION SUMMMER 2026

New designs for the season
Buttons, ribbons, fastenings

Replenish

puts people and nature at the centre and combines influences such as spirituality, vintage and festival culture into a holistic design approach. The goal is to develop sustainable products that, through materials such as GOTS-certified cotton, recycled leather, and eco-friendly PU, give back more than they take.

The design – ranging from tropical-surreal to nautical and vintage-inspired to mystical and functional – highlights the connection between sustainability, closeness to nature, and innovation.

Buttons made of natural materials such as wood and mother-of-pearl, in organically inspired shapes, convey a sense of calm aesthetics while underscoring the commitment to sustainability. In keeping with this, trimmings in natural tones made from pure cotton.

The colour palette combines natural shades with vibrant accents such as Blue Aura and Amber Haze.

★ Highlight colours

Playful Paradox

The „Playful Paradox“ theme combines a rebellious attitude with childlike and grown-up elements. It focuses on handmade, playful products with a dark, seductive aesthetic, inspired by nostalgia and kidulting trends. The design directions – from doll mania to Western aesthetics, sporty looks and dramatic cabaret – demonstrate how sustainability, nostalgia, and creative innovation are translated into fashion and accessories. Buttons and lace in bold colours with playful detailing provide creative highlights – in harmony with sustainable design and the beauty of the imperfect.

The colour palette combines the Kawaii pop shade Electric Fuchsia with the pastel tone Jelly Mint.

★ Highlight colours

454447

Extraordinary

The „Extraordinary“ concept aims to enhance everyday products with technology-supported, sustainable and modular designs. It focuses on simple, durable upgrades that are easy to dismantle and biodegradable in order to conserve resources and create futuristic aesthetics. The focus is on reducing the superfluous in favour of warmth, sophistication and humanity. The design directions range from functional, modular products and playful travel items to minimalist office and everyday clothing as well as futuristic materials and dream technologies. Elegant metal clasps in gold and silver, along with artful bag fastenings combined with timeless, refined straps, create an expressive touch – inspired by romantic and bohemian style worlds.

The colour palette combines pastel shades with classics such as Classic Navy and Transformative Teal.
