COLLECTION TENDANCE AUTOMNE/HIVER 2026/2027

Nouveautés Fashion de la saison
Boutons, rubaneries, fermetures

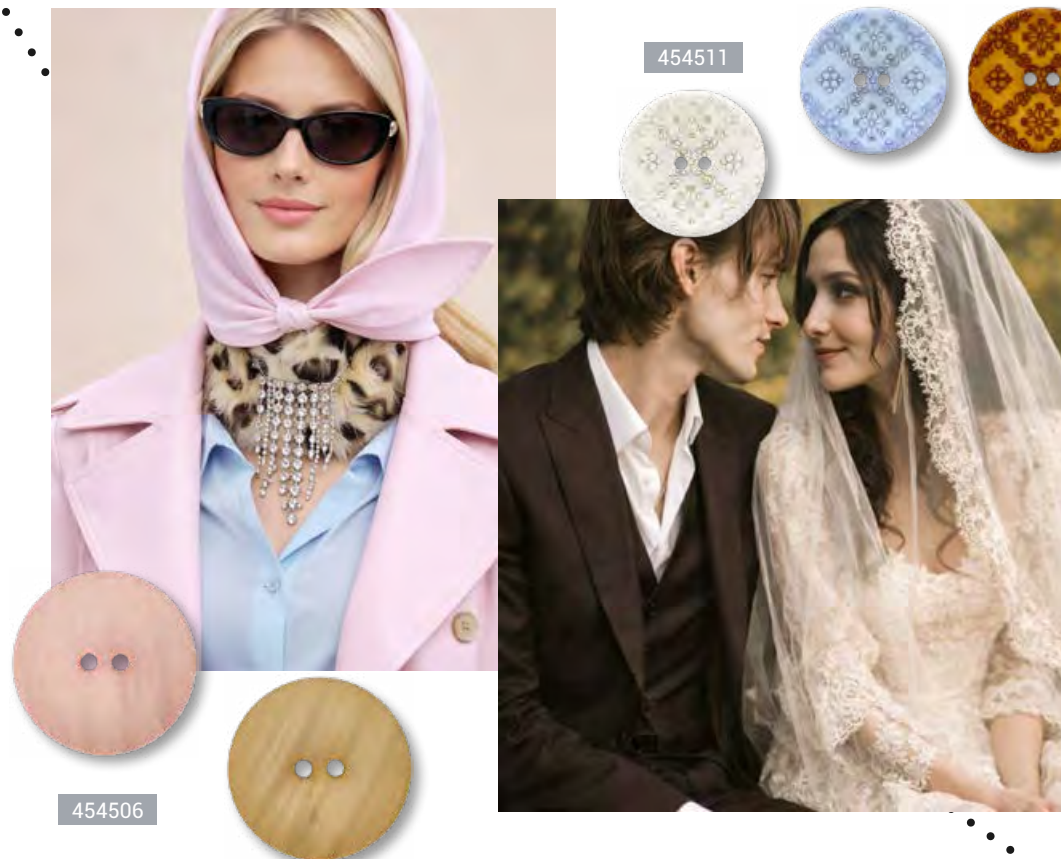

Kintentional

Kintentional met en avant un mélange à la fois de nostalgie, individualité et design durable. Les influences artisanales, les matériaux naturels et les contrastes chromatiques définissent cette tendance.

Pour votre collection, cela se traduit par des boutons, rubans et fermetures riches en détails et en différentes textures, avec un caractère vintage et une forte visibilité.

Des éléments parfaits pour apporter une dimension émotionnelle aux collections et affirmer la singularité grâce à des finitions soignées et expressives.

★ Couleurs principales

Empowered Play

Empowered Play célèbre la créativité, le jeu et une approche plus réaliste du design en réponse à la complexité du monde digital. Les couleurs primaires, les formes audacieuses et les textures 3D y occupent une place primordiale.

Pour votre collection, cela signifie : des boutons, rubans et fermetures colorés, audacieux, aux surfaces travaillées et offrant un potentiel de personnalisation.

Une excellente manière de dynamiser vos collections et de créer des pièces visuellement impactantes, portées par des détails originaux et émotionnels.

★ Couleurs principales

454493

Geo-Logic

Geo-Logic représente l'équilibre entre nature et technologie, avec une approche fonctionnelle et tournée vers l'avenir. Cette tendance privilégie une esthétique minimaliste, des concepts modulaires et des matériaux durables.

Pour votre offre, cela se traduit par des boutons et fermetures robustes, authentiques, déclinés dans des tons terreux et minéraux, avec des textures originales.

Idéal pour compléter vos collections avec un look moderne, épuré et engagé dans une démarche responsable.

LA PERFECTION
DU DÉTAIL

La mode joue des détails - et ce sont précisément ces détails qui font la différence. Avec Prym Union Knopf, vous offrez à vos clients un choix exclusif de boutons, rubanerie et fermetures de qualité qui allient parfaitement style, fonction et qualité.
