Gütermann creativ

The company

Max Gütermann gained his initial experience with fabrics and yarns during the century before last in Vienna – an important European trading centre for raw silk – before setting up his own company in 1864. The company developed very rapidly and it enjoyed a great deal of success, as a result of which the company's young founder set up his own manufacturing facility in Gutach in the Black Forest. That's the beginning of the story of a company whose development is closely linked to the history of sewing thread.

Further expansion and internationalisation of the business followed. With the fully integrated manufacturing plant in Germany and other production sites in Spain, Mexico and India, plus numerous subsidiaries abroad, Gütermann is now represented globally. As a company with a history stretching over 150 years, we still stand by traditional core values today, such as open communication. We think globally and trade locally. Continuity and decades of experience in further development of products makes Gütermann a global sewing thread specialist.

We will continue to build on innovations in products and systems, quality, service and speed, with the huge commitment of our employees and the close partnership with our trading partners forming the basis. The Gütermann creativ brand reflects these values.

Continuity and progressive change will continue to be our maxims.

Benefits

▪ Traditional company with a 150-year history

▪ Sewing thread specialist with ISO quality certification

▪ Decades of experience in product development

▪ The most modern, fully integrated production in Germany

▪ Successful, continual company development

The services portfolio

Today Gütermann is the market leader in the premium sewing threads segment in many European countries. End consumers really trust the Gütermann creativ brand and associate it with the highest standards in quality and safety. Gütermann is a reliable and cooperative supplier that takes a clear direction with their marketing philosophy and actively manages markets together with their trading partners.

This success is based on the services portfolio. The brand's foundations are the building blocks of products / assortments, merchandise presentation, advertising / sales promotion and service – all perfectly slotted together. We develop innovative concepts and put them into practice all over the world. The highly modern production facilities cater for numerous products and comprehensive assortments of the highest quality. They are presented perfectly in trend-setting display systems and modular furniture.

This all creates the brand's added value, along with excellent customer service. The seal of approval "100% Premium Quality – by Gütermann creativ" reinforces the brand promise and the lettering on the red band makes sure that end consumers always recognise it quickly.

Benefits

- Market leadership for sewing threads in many European countries
- High brand acceptance and preference among end consumers
- Reflection of the values of trust, quality and safety
- Active market development together with trade partners

The products and assortments

The right selection of products is the key to success. End consumers of Gütermann materials want to do so creatively and put their inspirations into practice. They don't just expect highly versatile products, the quality also has to be right so that high-end creations can be made.

All products are manufactured to the highest quality standards and meet environmental and technological requirements.

Success isn't just about having the right products. They also have to be combined together into top-selling assortments. One of Gütermann's strengths is creating the perfect assortment for every type of business and every sales channel. Our system and concept, combined with continuous innovations, guarantees success at point of sale (POS).

Benefits

- Demand-orientated product selection and top-selling selections in the smallest areas for maximum returns
- Great variety of product range and the right product selection for every business type
- Highest quality and environmentally-friendly
- More frequency and success at POS
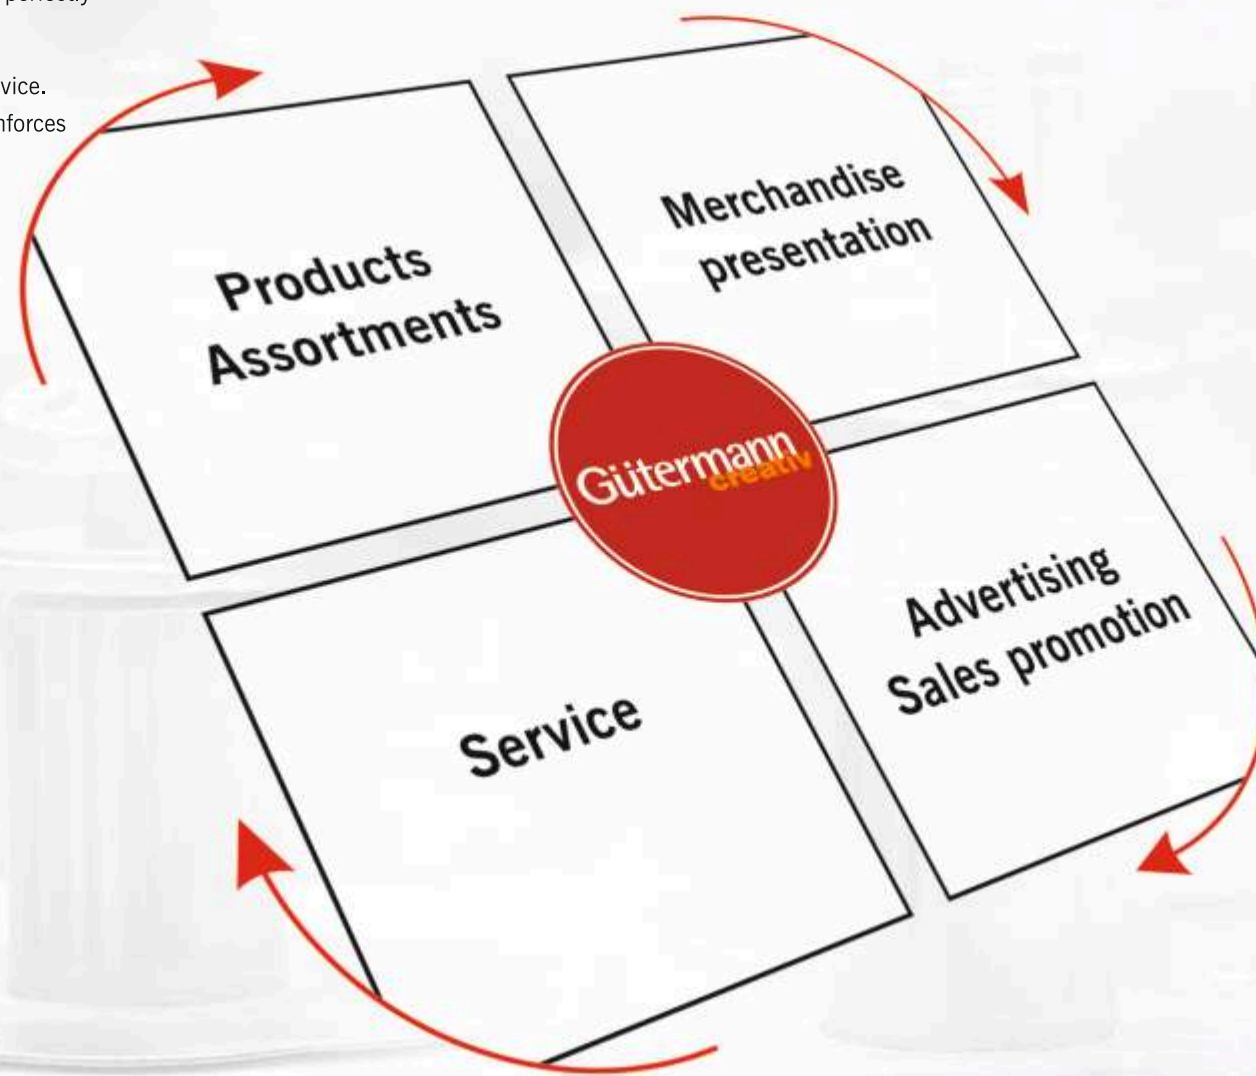

Merchandise presentation

Setting up products at POS is more important now than ever before. The end consumers favour a creative environment where they can be inspired and select their products. To achieve that, product presentation must be both appealing and clearly arranged.

Functional and attractive product presentation furniture and displays make choosing the right products easy for the customer. For example, the large sewing thread furniture from Gütermann creativ is an eye-catching addition to every shop. With modular standard furniture and attractive displays for sales campaigns or additional placements, Gütermann creativ has the right solution for all product groups and every business concept.

Benefits

- Easy for end consumer to select the right products
- Modular standard furniture
- Attractive displays
- Assortment-appropriate planning

Advertising and sales promotion

Gütermann creativ successfully supports the attraction of end consumers with lots of advertising and sales promotion activities. Advertisements in international magazines ensure that the brand is well known. Lots of sales promotion materials make Gütermann creativ stand out at POS and also support sales.

Also, end consumer brochures awaken creativity in the end user, encourage imitation and provide lots of tips.

Benefits

- Brand advertisement in magazines
- Direct sales promotion at POS
- Successful sales promotion with brochure

Service

Comprehensive services round off the Gütermann creativ range. Our trained sales team provides active and professional advice on products and assortments. Whether on-site, by telephone or by e-mail – for questions, requests and suggestions – we are always there.

Order processing is quick and easy, when combined with the most up-to-date communication channels. Global logistics ensures reliable merchandise despatch – everything to the right place at the right time.

Benefits

- Competent advice on products and assortments
- All products have a barcode
- Fast order processing
- Global logistics
- Specialist consultation on sewing and application technology

Sewing threads from Gütermann creativ are notable for the excellent colour selection and the highest quality. State-of-the-art production processes and the processing of high-quality raw materials guarantee sewing threads with optimum stitching properties.

All sewing threads are offered on uniform reels with different lengths, integrated thread tie-off device and EAN coding. Specially developed reel labels prevent peeling when inserting the reels onto the sewing machine spool mandrel.

Refilling boxes with EAN coding and a viewing window enable the effective and timesaving refilling of the presentation furniture.

Sew-all Thread

The Gütermann creativ Sew-all Thread is the correct sewing thread for all materials and seams. It is exceptionally suitable for stitching with the sewing machine and by hand, regardless of the stitch type – the Sew-all Thread is designed to handle all demands.

This particularly high-quality and uniform sewing thread guarantees optimal sewing without fiber lint and seam crimping with the finest needles, from needle size NM 70. Strong and durable seams result from the high tear and abrasion resistance of the sewing thread. The brilliant colours with silk-like gloss lend the seam a high-quality and elegant appearance.

The Sew-all Thread impresses with its high quality and extensive colour selection in different lengths.

Benefits
- made in Germany
- for all materials and seams
- no fiber lint with sewing
- tear-resistant with more than 50 % seam resistance reserve
- for sewing with the sewing machine and by hand
- no thick and thin locations, optimal stitch security
- for sewing with the finest needles, from needle size NM 70
- no twisting of the sewing thread
- exceptional wear resistance
- elastic and extendible
- particularly soft and supple
- light-resistant and colour-fast
- brilliant colours with silk-like gloss
- excellent and extensive colour selection
- high-quality raw material

Applications
- for lock and step seams
- for overlock and safety seams
- for buttonholes and for sewing on buttons
- for fine ornamental stitches and decorative seams
- recommended needle and needle size: Universal Needle NM 70 – 90

Sewing Thread rPET
made from 100 % recycled polyester

100% recycled

Sewing Thread rPET

30 m – 33... PET - 100m - 1

Be responsible for the environment – conserve natural resources! The Sew-all Thread 100 m rPET and Top Stitch 30 m rPET are the sewing threads from Gütermann creativ made of 100% recycled polyester.

The raw material for these environmentally-friendly threads is provided by recycled beverage bottles made of 100 % PET (polyethylenterephtalate). The collected PET bottles are washed in different stages, shredded into so-called flakes and melted,

The microfilaments that are obtained from the granulate then form the basis for production of the sewing threads.

The special advantages of the sewing threads made from rPET lie in the recycled raw material. Less energy is required to manufacture the raw material and the CO_2 emissions are significantly reduced – this conserves the environment and saves natural resources.

Thanks to the Micro Core Technology ®, environmentally-friendly sewing threads with excellent sewing properties can be produced with the existing production facilities and processes.

The reels for the sewing threads made from rPET are made of 100 % polystyrol (PS) and can be collected in single varieties, and then disposed of in an environmentally-friendly manner in the recycling points provided in towns and cities.

The presentation of the products at the POS is today more important than ever. The end customer wants to be inspired and select their products in a creative environment. To achieve this, the product presentation must be attractive, but at the same time clearly arranged.

Functional, attractive product presentation furniture and displays enable the end customer to make a simple, optimum product selection. The large sewing thread displays by Gütermann creativ, for example, are eye catchers in any shop. With modular, attractive displays Gütermann creativ offers the right solution for all sewing and embroidery threads and for any business concept.

All the advantages at a glance

- **Innovative multi-function furniture** for product presentation in a straight or sloping front
- **Elegant, timeless design** in white, the fashionable-colour
- **Article strips** with colour coding
- **Horizontal EAN Code** that can be recorded easily and quickly
- **Stock of products** checked easily and quickly
- **Practical refill** box for efficient filling of the sewing thread reels
- **Base,** with practical storage compartment

Innovative multi-function furniture for product presentation in straight or sloping front

The innovative Gütermann creativ stand displays can very easily be converted from a straight front to a sloping front unit. You can therefore select the perfect presentation variant for your shop fittings. The display insert is simply pulled forward until it engages. By lifting the display insert slightly and pushing it back, the sloping front unit becomes a straight front unit again.

Elegant, timeless design in white, the fashionable-colour

All Gütermann creativ displays are presented in an elegant, timeless design. Straight lines and the fashionable-colour white make the displays appear light and neutral and put the focus on the colours of the sewing threads in the product presentation.

Article strips with colour coding

The different sewing threads and sewing thread groups in the display can be distinguished very clearly by means of the article strips with colour coding. The displays provide a clearly structured product presentation and customers can find their way around easily. The article name, the running length and the corresponding care symbols are listed on the article strip.

Horizontal EAN Code recorded easily and quickly

For all sewing threads the colour numbers and EAN codes are indicated on the displays in horizontal text. This enables the EAN codes to be scanned very easily and the EAN codes can be recorded very simply and quickly by the mobile EAN code scanners.

Product stock checked easily and quickly

The content of a reel compartment can be checked very easily due to the specially developed compartments. Run along the reel compartments from bottom to top with a pen and you can always see the first three reels in the compartment.

For a detailed product stock check use the Gütermann creativ measuring gauge. Insert the Gütermann creativ measuring gauge into the reel compartment. You can then read off the exact number of reels in the compartment from the table on the Gütermann creativ measuring gauge.

Practical refill box
for effective filling of the sewing thread reels

The Gütermann creativ sewing threads are supplied in practical refill boxes. The reels need not be placed in the display individually but can be inserted in the reel compartment directly from the box due to the practical filling aid this saves up to 40% filling time.

Gütermann creativ offers a wide, comprehensive selection of different ranges for sewing threads. The individual ranges are designed in a modular system and can be integrated in a large number of different combinations.

The right product range can therefore be selected for each type of shop and optimum use can be made of the available sales area.

Because of the uniform dimensions of the different removable and stand displays, self-contained general presentations that impress the end customer can be produced.

Gütermann creativ

Machine Embroidery Thread

Gütermann
creativ

Premium Quality
100%
by Gütermann

Benefits

- high-quality viscose machine embroidery threads in various diameters, lengths and comprehensive range of shades
- Metallic effect threads in various finishes
- Cotton threads for machine embroidery, quilting and patchworking
- smooth fine underthread in various lengths; also available on pre-wound bobbins

- uniform reels for various lengths with integrated thread tie off and EAN coding
- refill stock supplied in boxes with viewing window designed for effective and time saving restocking

Rayon 40

200 m

Art.	709700
Sales Unit	5 reels
Shade selection	260 shades
Thickness	40 – No. 110 – dtex 268(2)
	100 % Viscose

- universal machine embroidery thread for all embroidery motifs
- for fine ornamental stitches and decorative machine quilting
- brilliant colours with silk-like gloss
- recommended needle and needle size: machine embroidery needle NM 70 – 90

500 m

Art.	709719
Sales Unit	5 reels
Shade selection	195 shades
Thickness	40 – No. 110 – dtex 268(2)
	100 % Viscose

1.000 m

Art.	709727
Sales Unit	5 reels
Shade selection	80 shades
Thickness	40 – No. 110 – dtex 268(2)
	100 % Viscose

Gütermann creativ

Premium Quality 100% by Gütermann

Cotton 30

300 m

Art.	709743
Sales Unit	5 reels
Shade selection	162 shades
Thickness	30 – Ne 30/2 – dtex 400(2)
	100 % Cotton

- universal machine embroidery thread made from 100% cotton
- for embroidery motifs with wool character
- ideal for machine quilting
- recommended needle and needle size: machine embroidery needle NM 80 – 90

Cotton 12

200 m

Art.	709751
Sales Unit	5 reels
Shade selection	90 shades
Thickness	12 – Ne 18/2 – dtex 660(2)
	100 % Cotton

- universal machine embroidery thread made from 100% cotton (stitch density must be adapted)
- for embroidery motifs with woollen properties
- for plastic embroideries
- ideal for machine quilting
- recommended needle and needle size: machine embroidery needle NM 90 – 100

Metallic

200 m

Art.	709760
Sales Unit	5 reels
Shade selection	30 shades
Thickness	40 – No. 135 – dtex 215(1)
	60 % Polyamide / 40% Polyester

- universal metallic effect thread for all embroidery motifs
- for twinkling appearance and shimmering effects
- for ornamental stitches and decorative seams
- recommended needle and needle size: metallic machine embroidery needle NM 80 – 90

500 m

Art.	709778
Sales Unit	5 reels
Shade selection	16 shades
Thickness	40 – No. 135 – dtex 215(1)
	60 % Polyamide / 40% Polyester

Sliver

200 m

Art.	709786
Sales Unit	5 reels
Shade selection	20 shades
Thickness	40 – No. 175 – dtex 170(1)
	60 % Polyester / 40 % Polyethylene

- universal metallic effect thread made from fine strips for all embroidery motifs
- for highly sparkling and twinkling effects
- embroidery motifs are provided with a smooth and uniform surface
- for ornamental stitches and decorative seams
- recommended needle and needle size: metallic machine embroidery needle NM 80 – 90

Holoshimmer

200 m

Art.	709948
Sales Unit	5 reels
Shade selection	20 shades
Thickness	40 – No. 160 – dtex 190(1)
	60 % Polyester / 40 % Polyethylene

- holographic metallic effect thread for all embroidery motifs
- for highly sparkling and twinkling effects
- particularly beautiful effects in the case of embroidery motifs with a wide satin stitch and low stitch density
- for ornamental stitches and decorative seams
- recommended needle and needle size: metallic machine embroidery needle NM 80 – 90

Glowy 40

100 m

Art.	709808
Sales Unit	5 reels
Shade selection	7 shades
Thickness	40 – No. 110 – dtex 266(2)
	100 % Polyester

- universal machine embroidery thread for all embroidery motifs which glow in the dark
- the embroidery thread stores sunlight and UV light and glows in the dark
- the duration of the light exposure determines the intensity of the luminosity
- guaranteed for up to 50 wash cycles without reduction of the luminosity
- recommended needle and needle size: machine embroidery needle NM 70 – 90

Invisible

200 m

Art.	709816
Sales Unit	5 reels
Shade selection	2 shades
Thickness	No. 270 – dtex 110(1)
	100 % Polyamide

- when the thread and seam should not be visible
- for stitching on beads, cords, ribbons etc.
- fine, tear-resistant and transparent monofilament thread
- recommended needle and needle size: machine embroidery needle NM 70 – 80

Gütermann creativ

Bobbin

200 m

Art.	709824
Sales Unit	5 reels
Shade selection	2 shades
Thickness	
	100 % Polyester

- ideal under bobbin thread for all machine embroideries
- very fine, supple and tear-resistant
- results in a first-class embroidery motif

500 m

	100 % Polyester

120 m

Art.	709859
Sales Unit	144 Bobbin Threads
Shade selection	2 shades
Thickness	No. 195 – dtex 156(2)
	100 % Polyester

Gütermann creativ offers a wide, comprehensive selection of different ranges for embroidery threads. The individual ranges are designed in a modular system and can be integrated in a large number of different combinations.

The right product range can therefore be selected for each type of shop and optimum use can be made of the available sales area.

Because of the uniform dimensions of the different removable and stand displays, self-contained general presentations that impress the end customer can be produced.
