Overlock and coverstitch seams

Sewing your own clothes is trend – and an increasing number of overlock and coverstitch sewing machines are finding their way into people's craft rooms. And Gütermann creativ is supplying high-quality sewing threads for these popular and fashionable sewing projects.

All the serging, seaming, decorating and effect threads you could wish for. Whether you are using universal threads with Micro Core Technology®, soft and elastic bulk thread or semi-transparent continuous filament, the broadest range of fabrics and knits can be sewn simply, beautifully and professionally using the right Gütermann creativ sewing thread.

Decorative, multicolour seams create fashionable effects and turn your hand-made pieces into personalised fashion highlights. This optimal range of solid colours offers the right colour nuance for any fabric. Fine serging with the semi-transparent continuous filament joins sewing threads and fabric almost invisibly.

High-quality Miniking reels guarantee precise thread movement on all standard household, overlock and coverstitch sewing machines.

Miniking 1.000 m

Gütermann creativ Miniking 1.000 m is the universal sewing thread for all household, overlock and coverstitch sewing machines. Miniking 1.000 m in thickness No. 120 masters all closing seams, lockstitch seams and also classical serging with ease. All types of fabrics can be sewn, including fine and light fabrics with fine needles. This universal sewing thread impresses on the grounds of its production technology. The Micro Core Technology® is unique spun technology on the basis of microfilament polyester – Made in Germany. For beautiful, strong seams.

Tera 180 2.000 m

Gütermann creativ Tera 180 2.000 m is the specialist sewing thread for fine overlock and coverstitch seams. This semi-transparent continuous filament in thickness No. 180 is particularly suited for very fine and light fabrics because of its very smooth thread surface. Whether for classical serging or coverstitch seams – with Tera 180 you can create the finest seams that do not mark when ironed. The semi-transparency ensures an optimal colour match to the fabric.
