Denim 100 m

The new professional jeans thread

EN

Sew like the professionals

Denim fabrics are trendy right now - and not just for jeans. Authentic, sturdy and cool, denim bags, backpacks, pillow cases or vase covers make for great accessories.

The new jeans thread Denim 100 m from Gütermann creativ lets everyone be as creative and stylish as the professionals.

Easily and professionally create robust stitching and decorative seams, typical jean cuts and trendy effects with Denim 100 m.

Regardless of whether you use denim fabric or create something new from an old pair of jeans, this strong thread is easy to use and secure, with low thread tension. Thanks to its breaking strength, high resistance to scrubbing and colour fastness, it is ideal for basics or your own fashion highlights.

The thread performs exceptionally well as a needle or bobbin thread, even if you are using several layers of fabric or stitching seams together. The special sewing thread structure perfectly fits the typical denim style.
