**MICRO CORE
TECHNOLOGY®**

Around 1,000 m of Sew-all Thread rPET or
300 m Top Stitch rPET sewing thread are
produced from just one PET beverage bottle!

1,000 m

Be responsible for the environment –
conserve natural resources! The Sew-all Thread
100 m rPET and Top Stitch 30 m rPET are the
sewing threads from Gütermann creativ made
of 100 % recycled polyester.

The raw material for these environmen-
tally-friendly threads is provided by recycled
beverage bottles made of 100 % PET
(polyethylenterephthalate). The collected
PET bottles are washed in different stages,
shredded into so-called flakes and
melted.

The microfilaments that are obtained from
the granulate then form the basis for
production of the sewing threads.

The special advantages of the sewing threads
made from rPET lie in the recycled raw
material. It conserves the environment
and saves natural resources.

Thanks to the Micro Core Technology®
environmentally-friendly sewing threads
with excellent sewing properties can be
produced with the existing production
facilities and processes.

The reels for the sewing threads made
from rPET are made of 100 % polystyrene
(PS) and can be disposed of with the
separated household waste, and in this
way are supplied to the recycling loop.

Because we love nature

1,000 metres of sewing thread from your old PET bottle

We are a global player. But we are surely not going to play with
the future of our planet. That is why we have researched and
developed an environmentally friendly sewing thread. And, of
course, in the usual outstanding Gütermann quality.

One reason why the conservation of natural resources is so
important to us is certainly that our company headquarters have
been based in the beautiful Black Forest for 150 years. We design
and manufacture our products amidst the wonderful countryside.
We benefit from the crystal clear river water of the Elz that is
deficient in lime. And we wish for it to stay that way.

This is why the 100 % recycled rPET sewing thread consists of
what is already there: your old PET bottles. You already know its
outstanding sewing properties: thanks to Micro Core Technology®
by A&E Gütermann.

Sew-all Thread rPET

Sales unit 5 reels
Material 100 % recycled polyester
Care

- all fabrics and seams
- sewing with the sewing machine and by hand
- closing and lockstitch seams
- fine decorative stitches and seams

Thickness No. 100
Needle Universal Needle
Needle size NM 80 – 90

Art. 723860
 100 m
 50 shades

Shade selection

Top Stitch rPET

Sales unit 5 reels
Material 100 % recycled polyester
Care

- ornamental stitches and lockstitch seams
- decorative seams
- manually stitched eye buttonholes

Thickness No. 30
Needle Universal Needle
Needle size NM 100 – 120

Art. 723665
 30 m
 20 shades*

Small shade variations may occur.

Storage & Display Box Sew-all Thread rPET

Art. 799742
Sales unit 1 display
Content 48 reels Sew-all Thread rPET 100 m in 8 shades, 6 reels per shade
Dimensions 245 x 130 x 45 mm

Sewing thread set Sew-all Thread rPET – 10 reels
