A tradition of innovation.

Our S-spring press fastener has been our brand's signature feature, representing our spirit of innovation, since 1903.

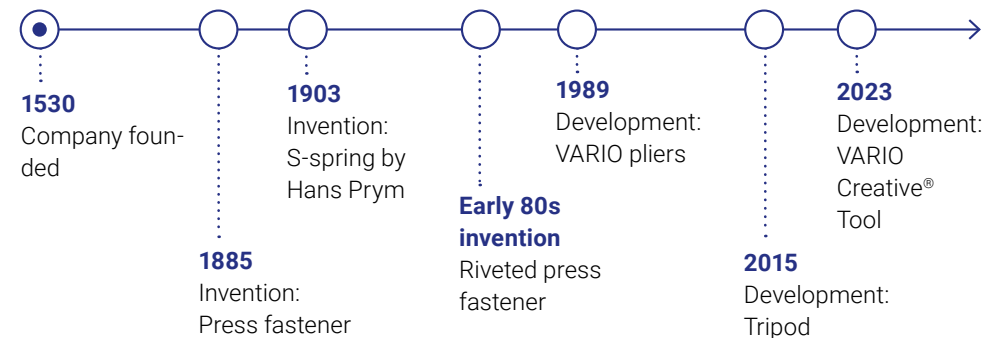

Our motivation has always been to design innovative, high-quality products for all kinds of textile-based crafts.

In close dialogue with our customers and consumers, Prym has constantly extended the non-sew range with more and more products for you to use without needle and thread. The range is an ideal, pro-level solution for sewing professionals and beginners alike, providing a simple and durable way to attach eyelets, rivets, jeans buttons and press fasteners.

At the same time we have further developed all the tools you need, from simple punching aids to VARIO pliers and even our innovative VARIO Creative® Tool.

The Prym non-sew range in a nutshell:

What products are part of the non-sew range?

The innovative and extensive non-sew range by Prym includes all items that can be riveted in place rather than sewn on with needle and thread:

- Press fasteners with varying fastening strengths
- Rivets & tubular rivets
- Eyelets
- Jeans buttons
- Hooks for trousers

To ensure the various non-sew items can be employed successfully, Prym has designed innovative tools and accessories.

Variety of shapes and colours

The Prym non-sew range is varied, durable, user-friendly and precise.

This wide range of products comprises traditional elements and up-to-date fashions.

The Prym non-sew range adds a special something to your craft projects.

The VARIO Creative® Tool – a non-sew revolution

The VARIO Creative® Tool offers several functions in just one tool: punching holes, attaching press fasteners, eyelets and rivets.

It is pleasant to use and switching between functions is effortless, so you can work with precision without getting tired and be confident of achieving your goal.

The ergonomic design and innovative mechanism combine for optimum energy

transfer, boosting the VARIO Creative® Tool's functionality and meaning that it can even handle large eyelets of up to 14 mm internal diameter and tubular rivets with 9 mm bars.

It is compatible with all existing Prym tool sets and products from our non-sew range with these symbols: VARIO Creative® Tool and VARIO pliers.

VARIO Creative® Tool
Item no.: 390 903

VARIO Creative® Tool Inlay
refill pack 10pcs item no.: 673 139

Ergonomic design – developed in Germany.

Use the screw mechanism to adjust the height for your materials.

The tool holder keeps a firm grip on your tools.

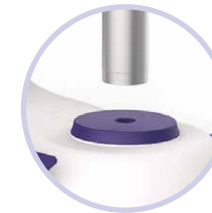

Plastic feet hold your position securely and guarantee a non-slip stand.

Adjustment screw for fine adjustment, limitation of power transmission.

The handle has three positions for precise work.

Height compensation depending on tool and material thickness.

Clamp for securing to a table, if required.

The two-way measurements for precise positioning and measuring.

HIGHLIGHT

Innovative tool for convenient, professional and precise working with optimised transfer of energy.

The effortless change of tools enables a fluent working process.*

Lift the handle.

Insert the punching tools.

Lower the handle, insert the fabric and ...

finish punching.

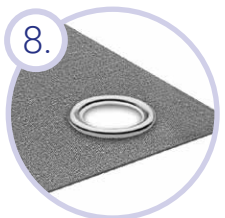

Insert the tool set for eyelets.

Insert the eyelets and fabric.

Lower the handle, insert the fabric and fix the eyelet in place.

Lift the handle and remove the material with the eyelet.

* Exemplary presentation based on attaching eyelets

Suitable for:

- Punching holes
- "Anorak" press fasteners
- "Sport & Camping" press fasteners
- "Jersey" press fasteners
- "Color Snaps" press fasteners
- Rivets
- Tubular rivets
- Eyelets with washers Ø 4 mm, 5 mm, 8 mm
- Eyelets with wahers, Ø 11 mm, 14 mm
- Jeans buttons
- Hooks for trousers

A compatible table clamp is available separately and provides added stability for maximum precision, freeing both hands to position materials and tools perfectly.

VARIO Creative® Tool
table clamp item no.:
390 904

VARIO pliers – our all-round star.

The Prym VARIO pliers are tried and tested when it comes to working with non-sew items. Every well-organised sewing room should have a pair. Press fasteners, jeans buttons, rivets and eyelets up to 8 mm in size are easy to attach to your chosen fabric without needle and thread.

Where needed, VARIO pliers can also be used to punch holes in fabric using the right tools set (see p. 17, fig. 2, item no.: 673 125).

The non-slip handle fits the human hand perfectly. The sturdy design and specially designed tools sets make working with Prym non-sew items incredibly precise.

The VARIO pliers feature small plastic inlays for optimum grip of the tools sets (see fig. 1, item no.: 673 126).

Super handy: The plastic lever included can be used to remove tools sets (see fig. 2) or to hold the pliers closed (see fig. 3).

HIGHLIGHT

Tried-and-tested
universal tool.

“Prym Love” VARIO pliers,
pink item no.: 390 902

Tripod – for flexible positioning

The tripod striking tool can be used to position rivets, eyelets and all kinds of press fasteners (except “Color Snaps”) anywhere on your craft project.

The method, using separate top and bottom parts, i.e. the “plate”, makes the tripod perfect for attaching non-sew fasteners away from the edge of the fabric. Simply place the plate underneath the material and insert the top section into the top of the tripod. The tripod design of the tool’s top section means you can see where you are working. This design, along with the guide plate on the bottom section, is especially sturdy. Push the tools from the right pack (see page 27) into the plate and the top section.

Use our crafter’s hammer (item no. 673 120) to fasten our non-sew items onto your craft project with no resistance.

Suitable for:

- “Anorak” press fasteners
- “Sport & Camping” press fasteners
- “Jersey” press fasteners
- Rivets
- Eyelets with washers, Ø 4 mm, 5 mm, 8 mm
- Jeans buttons
- Hooks for trousers

Tripod, striking tool for non-sew fasteners
item no.: 673 130

Striking tool

Our combination packs (see page 27) always contain the right tool to work the consumables included.

More information: See information on “Consumables with and without tools sets” on page 27.

HIGHLIGHT

Non-sew fasteners can be positioned anywhere on the fabric.

HIGHLIGHT

An easy way to start working with “non-sew” systems.

Punch perfect holes – with different tools.

Before you can use most Prym non-sew fasteners, you need to punch a hole in the fabric. Various tools are available for this purpose.

Revolving punch pliers

Revolving punch pliers by Prym are a versatile choice for punching holes in textiles, leather and much more. The punch pliers have 6 different hole sizes: 2.5 / 3.0 / 3.5 / 4 / 4.5 / 5 mm. They are suitable for a range of household, studio and craft purposes.

The handles feature non-slip grips and the locking bolt holds the punch pliers closed when not in use.

Revolving punch pliers
item no.: 390 905

Fig. 1

VARIO Creative® Tool

Piercing tools in diameters 2.5 / 3.0 / 3.5 and 4.0 mm are included in the VARIO Creative® Tool pack.

Fig. 2

VARIO pliers

VARIO pliers come with piercing tools to punch holes measuring 3 or 4 mm in diameter.

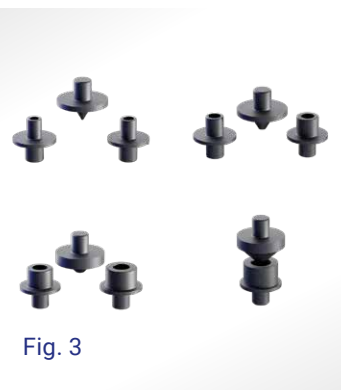

Fig. 3

Piercing tools

Piercing tools sets are available individually in the sizes 2.5 / 3.0 / 3.5 / 4.0 mm (item no.: 673 137) and 4.5 / 5.0 / 6.0 mm (item no.: 673 138). Piercing tools in other sizes are always included in the relevant non-sew combo packs with the matching consumables or tools sets.

Punching tool in consumable combo pack

The Prym non-sew combo pack provides consumables with the matching piercing tools and a punching tool. All that is then needed to punch holes is the crafter's hammer (item no.: 673 120).

The Prym non-sew colour-coding system in a nutshell:

So that everyone can use non-sew fasteners easily, Prym has developed colour-coded tools sets to make it easier to match non-sew items. These tools were designed specially for use with the VARIO Creative® Tool but can also be used with the VARIO pliers and tripod (see icons on packaging for precise matching).

The colour of the tools set you need is found on the consumables packaging.

Consumables

Tools set

Item no.:
673 134

exemplary product selection

The Prym non-sew tools sets.

Particular tools sets are needed for working with different non-sew fasteners with the respective tools.

They contain engraved processing tools and, where applicable, engraved punching tools for the relevant use, e.g. attaching press fasteners or rivets.

These tools sets were designed specially for use with the VARIO Creative® Tool but can also be used with the VARIO pliers and tripod (see icons on packaging for precise matching).

The tools sets are colour coded to easily match them to the relevant non-sew fasteners.

"Sport & Camping" press fasteners – firm closure

- Non-sew press fasteners for tough materials, such as those used in sports and camping
- Withstand high forces
- Firm closure
- Corrosion resistant

Prym "Sport & Camping" press fasteners are equipped with Prym's ring spring and are therefore particularly suitable for heavy demands for all types of leisure and sportswear, camping area, tent fabrics or coarse leather. The press fasteners with a strong fastening strength for the mounting on canvas or other strong materials are available in various colours. Beautifully crafted and refined by

special techniques the "Sport & Camping" press fasteners are corrosion resistant and can be washed easily, spin-dried, dry cleaned, ironed, and mangled. The press fasteners can either be fitted with the hammer, the VARIO Creative® Tool or with the VARIO pliers for non-sew products or the tripod.

"Anorak" press fasteners – mid-strength closure

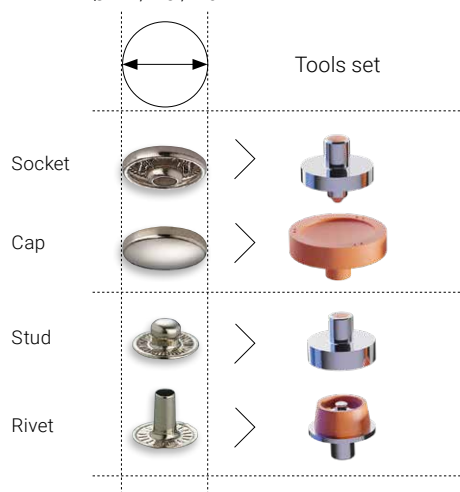

- Non-sew press fasteners for anoraks, jackets, dresses, skirts and fine leather
- Mid-strength closure

The "Anorak" non-sew press fasteners are perfect for jackets, anoraks, dresses, skirts, bags and fine leather materials thanks to their medium fastening strength. The special feature is the bronze spring wire (S-spring), which guarantees a smooth opening and closing function. The press fasteners are available from rustproof brass and in various finishes such

as silver, gold-coloured, antique brass, antique copper, old iron or burnished. Another attractive option is the lacquered cap in white and black colours. Alternatively, the "Anorak" press fasteners can be fixed with VARIO Creative® Tool, VARIO pliers for non-sew products or the tripod.

“Jersey” press fasteners – light fastening strength

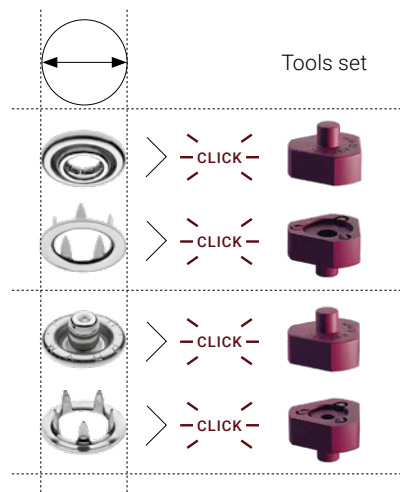

- **Non-sew press fasteners for thinner materials and stretchy fabrics**
- **A self-locking ring removes the need to punch a hole before attaching**
- **Light fastening strength**

The Prym “Jersey” press fasteners are characterised by their easy to medium fastening strength and are especially intended for thin and stretch fabrics, as are often used in baby’s and children’s clothing. The advantage of this press fastener is that no hole has to be punched for mounting - rather the integrated serrated ring only presses down the fabric so that it is protected. Washing, spinning, cleaning, ironing, mangling: for stainless “Jersey” press fasteners made by Prym, this is no problem. The press fasteners are available in different colours and designs.

Press fasteners in size 18 mm (item no.: 390 195 / 390 196) can only be attached using the tool included. Press fasteners in sizes 10 / 12 mm can also be attached using the VARIO Creative® Tool, VARIO pliers or Prym tripod.

Item no.: 390 740

“Color Snaps” press fasteners – light fastening strength

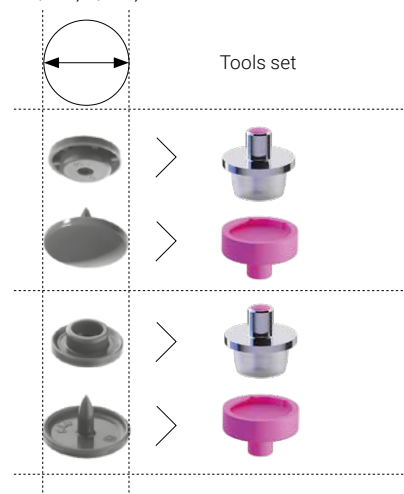

- Coloured snaps for baby and children’s clothes, bags, decorations, etc.
- Light fastening strength
- Easy to attach using the VARIO Creative® Tool or VARIO pliers with the “Color Snaps” tool

Prym’s colourful “Color Snaps” press fasteners are a beautiful and easy way to decorate clothes, bags, phone pouches or decorations. These popular snaps in a range of bright colours are made from sturdy plastic and fasten easily, making them ideal for baby and children’s clothing. “Color Snaps” are available in a range of shapes: round, heart-shaped, stars, flowers and even a sewn-on effect. These bright press fasteners are extra sturdy

and washable at up to 60 degrees – so you can enjoy your “Color Snaps” for a long time to come! If you attached a press fastener the wrong way around, just use the removal set (item no.: 673 140) to remove the fastener with no fuss. Then you can attach a fresh one.

Rivets

- Rivets with 9 mm diameter
- Can be used either way around
- For decorative purposes or to reinforce pocket corners
- Corrosion-resistant brass

Everyone knows them, the rivets on jeans that are used to reinforce the pocket corners and additionally act as a decorative element. Prym's 9 mm diameter universal rivets can be used on both sides, are made from stainless brass and are available either in silver / old iron or in antique copper / burnished copper.

The rivets can be attached using a mallet plus tool, with the VARIO Creative® Tool, the VARIO pliers or the tripod.

Rivets

Ø 9 mm, 32 pcs

For reinforcing pocket corners or use as a decorative element, rustproof; can be used either way around; silver-coloured/antique steel

Item no.: 403 103

Item no.: 403 101

Rivets

Ø 9 mm, 24 pcs

For reinforcing pocket corners or use as a decorative element; rustproof; can be used either way around; antique copper/black oxidized

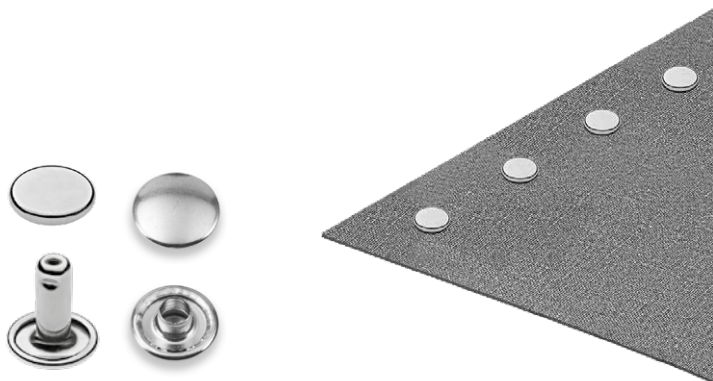

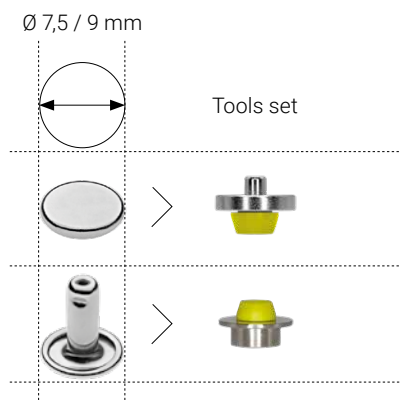

Item no.: 403 102

Tubular rivets

- **Tubular rivets for riveting thick materials like leather**
- **Rustproof brass**
- **Can be attached using the Vario Creative Tool**
- **Tools set (item no.: 673 128) for Prym tubular rivets available separately**

Prym's rivets are available in various sizes, making them suitable for different material thicknesses. The differences are in the diameter of the head as well as in the length of the inner pin. The higher the pin, the thicker the material to be riveted may be, such as leather. In the package you will find the right tools next to the tubular rivets - so all you need is a hammer to

work with the tubular rivets. The tubular rivets are made of stainless, silver-coloured brass and produce visually clean results for every application. Use either the crafter's hammer or the VARIO Creative® Tool to attach your tubular rivets.

Tubular rivets
Ø 7,5 mm for
materials 3 - 4 mm thick, 25 pcs

can be attached using the VARIO Creative® Tool and tools set (item no.: 673 128) or the crafter's hammer (item no.: 673 120) and striking tool from item no.: 403 150; rustproof; silver-coloured

Item no.: 403 170

Tubular rivets
Ø 9 mm for
materials 4 - 6 mm thick, 20 pcs

can be attached using the VARIO Creative® Tool and tools set (item no.: 673 128) or the crafter's hammer (item no.: 673 120) and striking tool from item no.: 403 151; rustproof; silver-coloured

Item no.: 403 171

Tubular rivets
Ø 9 mm for
materials 6 - 9 mm thick, 12 pcs

can be attached using the VARIO Creative® Tool and tools set (item no.: 673 128) or the crafter's hammer (item no.: 673 120) and striking tool from item no.: 403 152; rustproof; silver-coloured

Item no.: 403 172

Tubular rivets
Ø 7,5 mm for
materials 3 - 4 mm thick, 20 pcs

can be attached using the crafter's hammer (item no.: 673 120) and striking tool or the VARIO Creative® Tool and tools set (item no.: 673 128); rustproof; silver-coloured

Item no.: 403 150

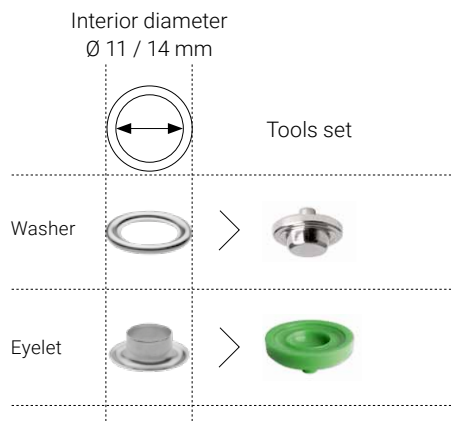

Eyelets with washers Ø 11 / 14 mm

- Eyelets with washers for clothing, household decorations and crafts
- Rustproof brass
- Can be attached using the Vario Creative Tool
- Tools set (item no.: 673 127) for Prym eyelets with washers in 11 and 14 mm available separately

If you want to improve the look of your project without sewing, it's easy! You can use Prym's classic eyelets with washers in a variety of settings and use them for lace-up fastenings, crafts, as a fashionable decorative element, for household items or anything else you can think of. These rustproof eyelets are made of brass and available in a range of colours and interior diameters.

Eyelets with interior diameter 11 mm or 14 mm can be attached using the crafter's hammer, or keep it simple using the VARIO Creative® Tool and the matching tools set. Attach your eyelets firmly enough that they no longer twist round easily – this will stop them from falling out when the material is pulled tight. For further reinforcement, we recommend our 'strong & safe' Power Dots (item no.: 966 020).

Eyelets with washers Ø 11 mm, 20 pcs

can be attached using the VARIO Creative® Tool and tools set (item no.: 673 127) or the crafter's hammer (item no.: 673 120) and striking tool from item no.: 541 383, rustproof; silver-coloured and available in 11 more colours

Item no.: 541 390

Item no.: 541 383

Eyelets with washers Ø 4 / 5 / 8 mm

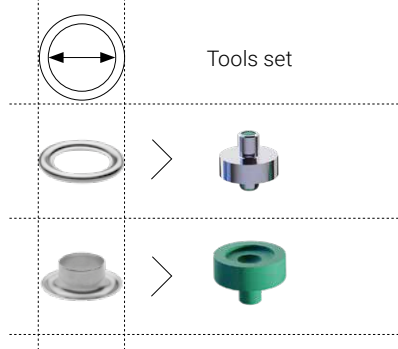

- Eyelets with washers for clothing, household decorations and crafts
- Rustproof brass

If you want to improve the look of your project without sewing, it's easy! You can use Prym's classic eyelets with washers in a variety of settings and use them for lace-up fastenings, crafts, as a fashionable decorative element, for household items or anything else you can think of. These rustproof eyelets are made of brass and available in a range of colours and interior diameters.

Use the hammer, VARIO Creative® Tool, Vario pliers or tripod to attach sizes 4, 5 and 8 mm. Attach your eyelets firmly enough that they no longer twist round easily – this will stop them from falling out when the material is pulled tight. For further fabric reinforcement, we recommend our 'strong & safe' Power Dots (item no.: 966 020).

“Jeans” buttons

- Specially designed for denim jackets, denim shirts and jeans
- Several versions and different diameters
- Rustproof brass

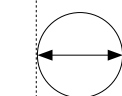

The Prym jeans buttons are designed specifically for use on denim jackets, denim shirts, jeans trousers and jeans skirts. Regardless of whether it is cult, casual or modern: The numerous models of jeans buttons leave nothing to be desired. The flower for kids jeans, the American-style for a cool look or rather without any motif? Here you will find everything that you need!

Use a hammer, the VARIO Creative® Tool, the VARIO pliers or the tripod to attach these non-sew buttons. And, of course, the rustproof brass of these jeans buttons means you can wash or clean them, even at 60 degrees.

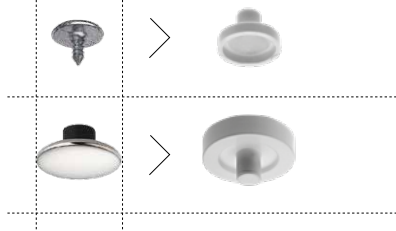

Since “Jeans” buttons are often used for repairs and only a few buttons are needed, we do not offer refill packs without the tool.
