A quick fix for a long life!

A visible hole in an item of clothing or an accessory that has pulled off are no reason to lose your much-loved pieces. **Repairing your things will make them last longer and feel extra special. This brochure contains quick and easy ways to repair and look after your clothes so that you can enjoy them for a long time to come. Scan the QR codes to watch video tutorials.**

It's all about care

Properly caring for your clothes can help to keep them looking new for longer and last longer overall.

Sustainability and slow fashion

Care and Repair is part of a more sustainable lifestyle. Extending the life of your favourite items is a way to stand up to fast fashion and overconsumption. You will be doing something positive for the environment and saving money at the same time.

Repair & Care with Prym

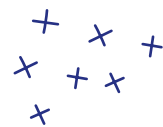

Clothing repair and proper care are usually easier than you might think. On the subject of Repair & Care, we have collated some clever tools and handy repair tips for you, that will help you to extend the lifespan of your favourite clothes and fabrics.

Clothes repairs made easy –

with repair sheets, adhesives, and more.

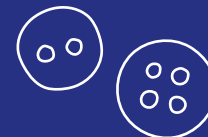

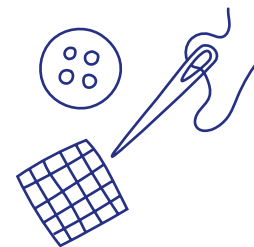

Happiness is
handmade.

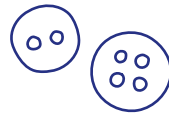

Repairing damaged clothing is usually easier than you might think and often does not require any particular sewing skills.

Here, we show you how to use a range of methods to mend, darn or hide different types of holes and rips. Learn how you can fix a button that has pulled off, a fallen hem, and fraying edges.

Sewing on buttons

Needle, thread and buttons

A missing button looks messy and can make an item unusable. But you don't have to throw it away.

You can use Prym's repair tools to sew loose buttons back into place or replace missing ones.

Our ready-to-sew needles (item no.: 121 105) are perfect for quick repairs on the go and come securely packaged in a handy plastic case. With 9 different pre-threaded colours you are always well equipped. In addition, our thread plait set (item no.: 610 650) provides a wide range of colours, along with a needle and needle threader for repairs at home or on the go. If a button has fallen off and gone missing, we also have a huge selection of buttons to choose from.

Item no.: 610 650

Item no.: 121 105

TIP

If you have lost the torn button, we can help you with a huge selection of buttons.

Just scan the QR code to find out how to sew on a button with ease.

Replacing zipper pullers

Fashion zipper pullers

We've all been there: The zipper puller breaks off the zip fastener and, all of a sudden, it is a whole undertaking to open and close your jacket, bag or whatever the affected item is.

Our fashion zipper pullers are the solution! And they are available in a wide range of designs. They are ideal for fixing broken zipper pullers, or using on your craft projects or to add some wow to an existing zip.

Our zipper pullers are compatible with any zip fastener on clothes or bags and will allow you to open and close your zip fasteners with ease once more. A snap hook makes these zipper pullers incredibly easy to attach.

Item no.: 482 121

Item no.: 482 505

Item no.: 482 133

Item no.: 482 173

TIP

These fashion zipper pullers are available in a range of colours, shapes and designs.

Scan the QR code to see how easy it is to swap zipper pullers.

Mend holes with style

Appliqués for ironing or sewing on

You've got an annoying hole in your trousers – and it's in a really visible place that is hard to mend discreetly?

There's only one thing for it! A cool appliqué. Now it's not just a repair. You are upcycling your clothes!

We have a wide range of designs: timeless, playful, fashionable, and even reflective so you can be safer in traffic. You can iron, stick, or sew on our appliqués, so you've got plenty of options. However, do bear in mind that additionally sewing your appliqué into place boosts its durability.

Item no.: 925 220

Item no.: 924 343

Item no.: 923 232

Item no.: 922 002

Scan the QR code for a video tutorial.

Hiding worn-through elbows

Patches for ironing or sewing on

Worn-through elbows are no reason to throw something away!

Our patches are a great way to both mend and upgrade your top.

With a wide range of colours, sizes, and materials available to either iron or sew on, our patches are versatile. Choose from options in imitation suede, denim, corduroy and more. They really are the perfect way to hide high-wear areas like elbows and knees, or simply to personalise your clothes.

The high-quality adhesive coating holds them firmly in place while you sew them on using the pre-punched holes along the edges.

Item no.: 929 323

Item no.: 929 383

Simply scan the QR code to discover how easy it is to attach patches to your clothes.

Mending cotton fabrics

Repair sheets for ironing on

What happens when your beloved jeans get ripped or wear out in one area, but they're fine everywhere else?

Our repair sheets for ironing on come to the rescue! There's no need to take them to the tailor and you won't need a sewing machine.

Our cotton-repair sheets are available in several colours and are an unbelievably easy way to repair rips and holes in cotton fabrics. The adhesive covers the whole surface, keeping them firmly in place. If using repair sheets on high-wear areas like the knees or elbows, they should be both ironed and sewn on.

Item no.: 929 480

Item no.: 929 393

Item no.: 929 401

Scan the QR code to go to our video tutorial.

TIP

It is so easy to repair denim items with our Jeans Repair Kit (item no.: 929 190).

Repairing waterproof clothes

Nylon patching

Waterproof textiles cannot simply be sewn up, so what do you do when a hole appears in your trusty raincoat?

Our nylon patching is perfect for this challenge.

Our self-adhesive, water-resistant 100% polyamide patches are ideal for fixing holes, tears, and worn areas on nylon, polyamide, and other technical textiles. You can use them to fix raincoats, waterproof trousers, umbrellas, and tarpaulins. They are easy to use and available in a range of colours.

Simply cut the right size and shape out of the patching material, make sure the area you are repairing is clean, dry and grease-free, and stick it on. You're done!

Item no.: 929 502

Item no.: 929 500

Item no.: 929 512

Scan the QR code for a detailed video tutorial.

TIP

Our patching is available in a wide range of colours, including reflective material.

Mending holes in patterned clothes

Textile repair powder

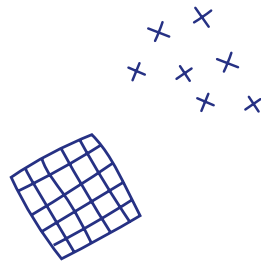

What happens when you discover an ugly hole or rip in your favourite dress and you don't have any sew-on or iron-on patching to hand?

No sweat! Our textile repair powder is the answer. You can use it to create a patch to suit using any fabric you can find.

Our textile repair powder makes it easy to iron on patches with no need to sew, and therefore no visible stitching. The lid helps to measure and apply the textile repair powder. Use our pre-made stencil at this stage for best results. Then use a damp cloth and an iron to simply and securely affix the patch or bond the seam.

Item no.: 987 157

Scan the QR code to watch a video tutorial.

Preventing fraying

Fray Check

Strained seams, fabric edges and button holes can quickly fray and they are often difficult to repair.

Well, our Fray Check is here to help. Just a small amount will help prevent your favourite clothes from fraying and you can repeat the process after a few washes.

This colourless liquid reinforces the fibres and prevents fraying on button holes, cut edges, seams, shirt collars, and cuffs. The dispenser bottle uses a pipette-shaped opening to help you precisely apply your Fray Check.

The effect may reduce after several washes but you can simply repeat the process as often as you like.

Item no.: 968 020

Use the QR code to see a video tutorial.

TIP

You can also use Fray Check to stop ladders in their tracks. Simply apply a small quantity of Fray Check to the top and bottom of the ladder and allow it to dry.

Making your own iron-on patches

Creative interfacing

What if you find a hole in an item of clothing for which you can't find the right design of iron-on patching?

Our creative interfacing is the answer. It will allow you to create personalised iron-on patches from any fabric.

You can use our 150 cm x 30 cm creative interfacing (item no.: 968 193) to patch, bond, or stabilise fabrics. First, trace the pattern of your preferred patch onto the paper side of the creative interfacing, then iron it on to any piece of fabric and cut it out. Then all you have to do is peel off the backing paper and iron the finished patch onto your item of clothing. If you need inspiration for a patch pattern, you can use one of the templates provided in the package.

Item no.: 968 193

TIP

If the creative interfacing is too big, we recommend using our deco interfacing (item no.: 968 190) instead. The content is the same but the size is smaller.

Scan the QR code to watch our video tutorial.

Securing hems and taking up trousers with no sewing

Hemming web with backing paper

Have you caught the hem on your blazer? Or are your trousers too long?

If you don't have a needle and thread or a sewing machine available, then our iron-on hemming web is the perfect choice for you.

Dresses, coats, skirts and trousers are easy to hem with our iron-on hemming web. It is available in a range of widths to cover every need. Simply iron on along the edge of the fabric, remove the backing paper, fold over the fabric and iron in place.

The hemming web may detach in the wash but the process can be repeated. The best option is to sew the hem as well.

Art.-No.: 968 170

TIP

Did you realise that your curtains were too long after you'd bought them? That's no problem either! You can use our hemming web for them, too.

Would you like some instructions? Just scan the QR code!

Simple ways to stick damaged fabrics

Textil+ Adhesive and leather adhesive

Ripped trousers? Handbag handle fallen off? Leaky tent? Shoe sole coming off? No problem.

Our Textil+ Adhesive or leather adhesive can fix almost any fabric.

"Textil+" textile adhesive is available in 13g, 30g, and 110g packs. And it is versatile, sticking to fabrics, leather, rubber, wood, metal, and PVC. It is solvent-free and dries transparent. If you need to correct your adhesive repair, you can undo it and restick it using an iron.

Our leather adhesive (item no.: 968 010) is particularly good for smooth or full-grain leather but it can also be used on rubber, wood, paper and metal.

Item no.: 968 008

Item no.: 968 010

TIP

For larger surfaces, we recommend our textile spray adhesive (item no.: 968 062).

Instructions are included in the packaging but if you want more details, try scanning the QR codes for a video tutorial.

Darning holes

Darning eggs and darning mushrooms

Have the moths got to your woolly jumper? Or are your socks wearing thin on the heel? There's no need to throw them away when you can darn them.

Use our classic darning egg or cute darning mushroom to make darning incredibly easy.

Darning eggs are traditional wooden tools that have stood the test of time. These are ideal for smaller holes and the darning mushroom can be used for bigger holes, too. With the right darning thread and darning needle, darning is not so tough any more.

Item no.: 611 591

Item no.: 611 266

Item no.: 124 119

Scan the QR code for a video tutorial.

More handy tools for quick and easy repairs

Sewing accessories kit

Our handy sewing set is a must-have for every household. Everything you need for a quick repair in one box, available in a range of bold colour combinations. Contains: 6 safety pins, 6 buttons, 3 sew-on press fasteners, 20 straight pins, 1 needle threader, 25 sewing needles, 1 thimble, 8 colours of thread, 1 tape measure, 1 stitch ripper, and 1 pair of stainless steel scissors. Ideal for out and about or travelling.

Item no.: 651 243

Jeans repair kit

Don't let holes in your favourite jeans be a worry. Our jeans repair set will make fixing them child's play. It contains 5 patches – 4 for ironing on and 1 for sewing on – sewing thread, a pin cushion, straight pins, sewing needles, and a needle threader. Repair your jeans and create new favourites. Taking a more deliberate approach to how you handle your clothes can be fun and create a sense of pride.

Item no.: 929 190

Safety pins

Our steel safety pins are versatile and great to have around day to day. They are anti-rust and feature narrow tips to make it easy to pierce your material. They close firmly even when used frequently. The clasps are made to be burr-free and provide secure fastening. Available in assorted sets of various sizes in silver and black.

Item no.: 085 122

Wonder tape

Our transparent "Wonder Tape" is an ingenious alternative to straight pins for holding fabric in place. It is 6 mm-wide double-sided adhesive tape and can be used to temporarily secure hems, zip fasteners, curtains and more. When you're done, it comes off in the wash with no residue.

Item no.: 987 125

Adhesive tape for leather

Our double-sided adhesive tape for leather is ideal for taking up leather clothes, e.g. coats, trousers, and skirts. It is invisible and can be removed effortlessly – perfect for making alterations before you sew them in place. That's not all, though. Our sturdy tape is also ideally suited to other types of leathercraft.

Item no.: 987 200

Water-soluble creative interfacing

Our versatile, water-soluble creative interfacing is ideal for embroidery if you'd like a creative solution for mending a hole or tear. It provides a sturdy base for working with delicate or stretchy fabrics and then comes out completely in the wash. It also prevents your embroidery from getting lost in the fabric when you are using structured materials like terry cloth. Detailed instructions are included in the packaging.

The best care –

to give your favourite pieces a long life

Happiness is
handmade.

With the right care, you can ensure that your clothes don't wear out as quickly, helping them to look new for longer.

Here, we show you how to protect fabrics in how you handle them day to day and how to stop minor damage early on, before it becomes a bigger problem.

Caring for woollen items

Wool comb + mohair brush

Always finding bobbles on your woollen clothes? Pilling is a pain and it makes your clothes look worn quickly.

Our wool comb and mohair brush solve that problem in a jiffy. Your jumpers, scarves and hats will be like new again.

Our wool comb (item no.: 610 690 / 611 733) is perfect for close-knit wool. It combs out matted fibres and makes your clothes look new again.

For mohair wool, fluffy yarn or faux fur yarn, use our mohair brush (item no.: 611 734). The soft plastic bristles are arranged in a spiral shape to gently pull the fluffy fibres back out and into view. To clean the brush, you can simply comb or wash the fluff and fibres out from between the bristles.

Item no.: 610 690

Item no.: 611 733

Item no.: 611 734

Scan the QR code for a video tutorial.

Removing pilling from fabric

"Maxi" and "mini" lint shavers

Pilling on fabric can be annoying, especially on larger surfaces.

Our convenient lint shavers will quickly have your fabrics looking new again.

Our battery-powered "maxi" lint shaver (item no.: 611 724) is ideal for larger surfaces. The perforated shaver head and sharp blades gently remove lint and small bobbles, while the catch container catches them for easy clean-up. There are two distance settings for different materials. Don't forget, before shaving your fabric, you should use our snag wizard (see page 28, item no.: 611 836) on pulled threads to pull them back into place and avoid holes. A "mini" version of our lint shaver is also available (item no.: 611 725) and is ideal for out and about.

Item no.: 611 724

Item no.: 611 725

Scan the QR code for a video tutorial.

Dealing with pulled threads

Snag wizard & mending needle

Fabrics can get snagged at any time. And it's especially annoying if it's in a visible place. But don't reach for the scissors! It'll just make it worse.

Our snag wizard and mending needle are the solution.

The snag wizard (item no.: 611 836) is a thin repair needle and perfect for simply pulling loose threads back into place. Twist the needle around several times and the raised spiral ripples on the end will grip the thread so you can pull it back to the reverse side of the fabric. Like that, minor damage to your clothes is easy to repair. The versatile mending needle (item no.: 610 960) can be used to repair stitches or to pull loose threads back into place. It comes with a protective cap that also functions as a grip.

Item no.: 611 836

Item no.: 611 960

Scan the QR code to watch our video tutorial.

More handy tools for the best fabric care

Lint brush & lint roller

Our lint brush (item no.: 610 723) has polyester bristles and either picks up lint or pulls it free depending on the direction of the stroke. An arrow shows you which direction to brush in. Easy to clean using hand-hot water. Alternatively, you can use our classic lint roller with adhesive paper sheets (item no.: 610 720) for jackets, blazers, suits, and more. Simply pull off each sheet when it fills up. Replacement rolls are available separately (item no.: 610 721).

Item no.: 610 723

Item no.: 611 720

Disposable dress shields

Our disposable dress shields are a great way to avoid nasty sweat patches and yellowed edges caused by sweat on high-quality outer clothing. These ultra-absorbent, self-adhesive sheets can simply be thrown away after use. Alternatively, we also have washable dress shields in our range that can be fastened to clothing.

Item no.: 994 295

Washing bags and washing bags for bras

Protect your delicate items in the wash using our washing bags. They offer protection and prevent straps from twisting, maintaining the quality of your laundry. Our range contains various sizes of bags for domestic use. The round washing bag for bras is specially designed for bras and lingerie. The top and bottom are reinforced with plastic so that it maintains its shape, while the fine mesh inside protects the delicate fabrics. All washing bags are washable up to 60 degrees.

Item no.: 968 475

Washing bag for bras

for protecting delicate items of laundry in the washing machine

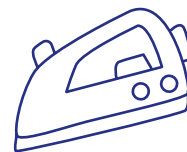

Item no.: 968 461

Handy ironing aids –

for neat, wrinkle-free ironing results

Happiness is
handmade.

If you want to care for your clothes well and repair them yourself when needed, you will need to use an iron.

Here, we show you how protecting your clothes when ironing and how proper iron use can help your favourite clothes to last longer.

Cleaning a dirty iron

Iron cleaner

Have you noticed a build-up of dirt and limescale on the soleplate of your iron? That can cause nasty stains on your clothes.

Our iron cleaner is here to help.

Our cleaning pen is great for iron care. It will clean and descale any iron soleplate. Simply apply it evenly to the soleplate on temperature setting 2. The heat will melt it. Then remove the dirt and limescale with a cotton cloth. To clean the steam nozzles, position the iron upright, release a little steam and wipe. After that, your iron will glide effortlessly over your fabrics again.

Item no.: 987 057

TIP

Ensure that no cleaner residue remains on the iron.

Scan the QR code to watch our video tutorial.

Ironing delicate fabrics

Pressing cloth

Ironing is great clothing care, but too much heat can have the opposite effect. Do you own clothes made from delicate fabrics that you daren't iron in case you damage them or turn them shiny?

You need our pressing cloth.

This thin, white pressing cloth protects garments from excess heat and prevents shine, especially on printed fabrics. It is transparent when wet so you can be precise with your ironing and steam application. The cotton absorbs moisture when steam ironing and releases it evenly. Cloth dimensions are 45 x 50 cm, so you can even press large areas.

Item no.: 611 929

Scan the QR code to watch a video tutorial.

Further handy ironing aids

MINI steam iron

Our handy mini iron is ideal for fiddly work and ironing narrow hems. It is also great for travel. The specially shaped handle is easy to hold and transfers pressure effectively. Available with a Euro safety plug (item no.: 611 915), Swiss safety plug (item no.: 611 920) or UK safety plug (item no.: 611 916). Contains a measuring beaker and storage bag.

Item no.: Euro safety plug 611 915 / Swiss safety plug 611 920 / UK safety plug 611 916

Mini iron case

The mini iron case protects your mini iron and is great for travelling with. The shock-proof hard case and its soft interior make for reliable protection. Precisely shaped and sized slots hold the iron and accessories firmly in place. An extra compartment with a rubber strap keeps the iron rest secure.

Item no.: 612 100

Iron rest

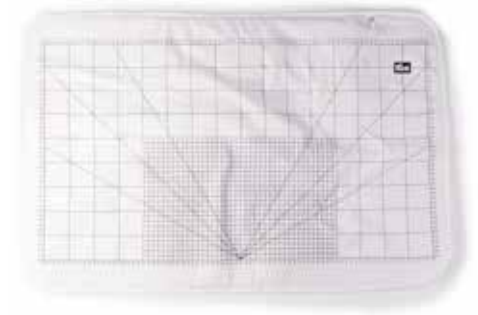

Our silicone iron rests are a flexible way for you to be able to briefly rest your hot iron. These iron-shaped, nubbled pads provide a secure grip and protect both the iron soleplate and the surface below. Perfect for ironing using steam.

Item no.: 611 907 Item no.: 611 911

Ironing blanket

No space for a bulky ironing board? Our versatile ironing blanket will solve that problem. Now you can iron on any flat surface, even if it is heat or moisture sensitive. The blanket is 60 x 90 cm and is double sided. One side features a metric grid for precise ironing and the other reflects heat, making it ideal for large items of washing or delicate precision work.

Item no.: 611 925

Sleeve ironing board

Ironing sleeves and trousers legs has never been so easy! Our sleeve ironing board is just 12.5 cm wide and quick to set up. The cover is coated on both sides, moisture-porous and heat reflecting. It is marked with centimetre measurements, making it handy when sewing, too! It really is a must-have for a high standard of clothing care.

Item no.: 611 912

Finger guards

We are interested in taking care of your fingers as well as your clothes! We have three silicone finger guards for you to use when ironing on patches or ironing out seams, hems and edges. Simply place them on your index, middle and ring fingers to work safely, even with delicate fabrics.

Item no.: 611 914

Item no.: 611 912

Finger guards

heat-resistant finger guards for short-term protection when ironing; ideal for ironing out seams, hems and tight corners

Item no.: 611 914

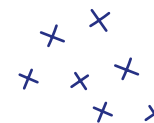

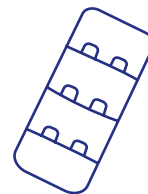

Handy tools for everyday use –

long-lived items are sustainable items

Happiness is handmade.

Use our handy tools for everyday use to extend the lifespan of your clothes or make them more useful. Save money and save the planet!

Here, we present some handy tools that you can use to refresh clothes that have got too small or become misshapen, or you could revamp something and change its purpose.

Replacing overstretched elastic

Threaders for elastics & bodkins

Is the waist on your trousers starting to sag? Don't worry – you don't need new trousers yet!

You can use our threader for elastics and other bands or our bodkin to insert a fresh elastic.

Our plastic threaders (item no.: 610 200) are perfect for elastics and non-elastic bands on waistbands, hoods, and more. They work for a range of widths and make it easy to replace elastics and other types of band. The bodkins (item no.: 131 320) are ideal for pulling elastics and cords through waistbands, hoods, and more. The rounded point glides effortlessly through any fabric tunnel.

Item no.: 131 320

Item no.: 610 200

TIP

If the cord you want to insert is too thick, you can use a safety pin to fasten it to our threader and then use as normal.

Expanding waistbands

Waistband expanders & flexi buttons

Is your favourite skirt cutting you in two? Or do your jeans not quite fit properly any more? There is no need to buy a whole new outfit.

Our waistband expander and flexi buttons are here to make any garment comfortable again.

The waistband expander (item no.: black 417 610 / denim 417 612) simply buttons in and expands the garment by up to 5 cm. Then, if your trousers or skirt fit again in the original size, you can easily remove the expander. Our metal flexi buttons (item no. 311 540) are the ideal fix for a change in collar or waistband size. Simply attach it to the existing button and fasten through the usual buttonhole. They are available in various sizes.

Item no.:
black 417 610 /
denim 417 612

Item no.: 311 540

Refreshing shirt collars

Collar ribs

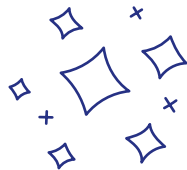

High-quality business-wear shirts and blouses often use collar stiffeners to maintain the shape and fit of the collar. If they got lost, the collar crumples.

Our transparent collar stiffeners will ensure that your shirts always look their best.

Handy for smooth, stiff collars. Simply insert them in the pockets already present under the collar and your collar will regain its shape. When you are ready to wash your shirt, just remove them again.

Item no.: 405 261

Extending bra fasteners

Bra extender 'soft comfort'

If your bra has shrunk in the wash or your back size has changed, you don't automatically need a new bra.

Our bra extenders are here to help.

They are a quick and easy way to increase your bra's back size. They are available in a range of widths and colours with up to four hooks per row. All feature three adjustment options for great comfort and less rub.

Item no.: 992 147

Item no.: 992 131

Item no.: 992 155

Hiding bra straps

Bra strap clip

You don't need a specific bra to wear with each top or dress.

Our bra strap clip will magically make your bra straps disappear!

It clips the straps together in the middle of your back, perfect for tops and dresses that show skin or for sportswear. The matt-finish, transparent H-shaped clip keeps your straps hidden under your clothes and stops them from creeping out at the side. Simply hook your straps into the clip.

Item no.: 991 872

Securing slippery clothes

Non-slip strips for coat hangers

Never again be annoyed at clothes continually falling off the hanger!

Our non-slip strips are the answer.

Simply stick them to the hanger and these high-quality 3M adhesive strips will hold your clothes in place. Non-slip nobbles ensure everything stays where it should. No more sliding off.

Item no.: 610 742

Non-slip tape for bag straps

Stop those bag straps constantly falling off!

Our handy non-slip tape will hold your bag in place. No more annoying sliding around and damaging your clothes.

Simply ensure the underside of the shoulder strap is clean and grease-free, then stick it on. The 3M adhesive is going nowhere. Now your hands are free, your clothes are protected, and your bag is securely on your shoulder.
