RANGE SUPPLEMENTS

PRYM. QUALITY MAKES THE DIFFERENCE.

Prym Consumer is the leading supplier world-wide of sewing and handicraft accessories. Today's success of the company is based on a tradition spanning more than 400 years – and on principles which have always guided our actions.

Processing solely high-quality materials guarantees precise and long-lasting functioning of the products.

In all manufacturing and processing stages, the highest standards are set and safeguarded by means of thorough controls.

Through customer-oriented product novelties and quick reactions to market developments, Prym customers are always in a position to take advantage of current market possibilities.

At Prym careful attention is paid to service and advice. A capable team of in-house and field staff is available to answer all your questions. With our expertise on products, their application and function, we offer advice on products and ranges adapted to every requirement.

The depth and breadth of the ranges fulfil a wide variety of customer wishes – a further indication for the competence of Prym as a manufacturer of branded products.

THE PRYM RANGE.

The Prym range of products fulfils every need. From the general purpose product to the specialist tool, Prym covers the wide scope of application requirements using attractive and eye-catching displays at the point of sale.

Network

Owing to the world-wide network with trading, sales and cooperation partners, suppliers and production facilities, Prym is always on the ball. New products, production techniques, packaging systems and faster communication channels guarantee constant topicality.

Ecology

Prym uses ecologically friendly production processes and packagings. Prym has increased its efforts in the optimization of processes, which allows the economical use of existing resources and the application of environmentally harmless production processes. It therefore goes without saying that our products comply with all applicable standards and legal regulations.

Innovation

One of our priorities is to ensure that our products are continuously optimized. It is particularly important to us to listen to tips and recommendations from our customers for all our improvements or new products; after all, user friendliness is the prerequisite for truly professional tools – which, needless to say, are also appreciated by hobby enthusiasts.

Our prym.ergonomics product range combines maximum functionality with outstanding design and has earned the prestigious red dot design award. It has even been nominated for the German Design Award.

NOMINIERT

GOOD TO KNOW ...

The prym.box!

Whether vertically, horizontally, the two elements placed next to each other or fitted one inside the other to save space – the prym.box can be transported or arranged at the workplace based on personal preference and space. The individual catalogues of the ten clearly arranged categories are always at hand and easy to remove.

The card

The most frequently used sales unit is the self-service card. The modern graphics are self-explanatory and stimulate spontaneous buying. Concise product designations with application photos make the respective area of use immediately clear. By using transparent blisters or cellophane wrappers, the original products are protected from becoming soiled and are always completely visible.

Price group and EAN bar code

All packs are marked with the respective price group. Prices can therefore be allocated without any problem. The EAN bar code, used in conjunction with computer-controlled stock management systems, offers a quick overview of stock levels and what needs to be re-ordered.

✿ Oeko-Tex certificate

Prym elastics meet stringent standards certifying environmental and skin friendliness and sustainability. This can easily be identified by the flower symbol in the "Material" column. Products provided with this label are manufactured according to the high Oeko-Tex standard. The environmentally friendly and resource-saving production processes are regularly checked by independent institutes.

Please note:

Some packs in the catalogues are illustrated in a reduced size. The actual pack sizes are indicated. Due to technical reasons during printing, the colours illustrated in the catalogues may deviate from the original product. Owing to constant updating in technical developments, which is done for the improvement of our products, slight variances may occur in some cases. Assortments are also regularly updated.

CARE SYMBOLS AND MATERIALS.

Washing

-  Normal wash
-  Gentle wash
-  Normal wash
-  Gentle wash
-  Normal wash
-  Gentle wash
-  Extra gentle wash
-  Normal wash
-  Gentle wash
